Intensive Study Periods

What are intensive study periods?

Enrolling in intensive mode subjects offers flexibility and can help you fast-track your studies by cutting down on time.

An intensive mode subject is equivalent to subjects offered over the 13 week period, except they are delivered over a more intensive time period. Usually intensive mode subjects are taught in the semester break over a two week period with classes scheduled five to six days each week from 9.00am to 5.00pm.

Preparing for intensive mode subjects

You need to be prepared for intensive mode subjects as they are highly intensive. Here are some tips to help you prepare:

- You should read at least half of the prescribed text before the first day of class
- Be very familiar with the learning objectives for each day
- Note assignment deadlines, some assessment may be due on the first day

Choosing intensive mode subjects

Most degrees have subjects available in intensive mode. To find intensive mode subject in your degree:

Step 1: Go eStudent and check your optional subjects on your Study Plan (e.g. electives)

Step 2: Go to Subject Search and select Intensive in the Attendance Mode field and your home campus in the Campus field

Step 3: This will list all the subjects available on your campus. You then need to choose one that fits the requirements in your Study Plan.

Study Periods 81-86

What are Study Periods 81-86

Study Periods 81, 82, and 83 take place in the first half of the year, and fall within Teaching Period 1. Study Periods 84, 85, and 86 take place in the second half of the year, falling within Teaching Period 2.

These six study periods all consist of a week of orientation, followed by seven weeks of teaching. There is no overlap between the study periods in order to allow students to focus on one subject at a time.

Students who study all of SP 81-86 will complete six subjects in a year and still have 10 weeks of breaks.

If you have questions about how your study is organised, contact the Student Centre in Townsville or Cairns.
