Bachelor of Environmental Practice

✓ Prepare yourself to take on the critical environmental and sustainability challenges facing the world today. Benefitting from JCU’s acclaimed reputation in environmental science, you’ll learn how the biological, physical, social, economic and political spheres interact and impact on current environmental issues.

✓ JCU environmental practice students develop an understanding of how to manage the interactions between people and the environment to find solutions to complicated environmental problems.

✓ Hit the ground running with the skills employers have told us they want in an Environmental Manager. This ground-breaking course responds to the needs expressed by corporate environmental management organisations for triple bottom line outcomes – environmental, social and economic.

**COURSE DETAILS:**

- **Locations:** Cairns, Townsville
- **Start Dates:** February, July
- **Duration:** 3 years full-time, part-time available
- **ATAR:** 53.35 | English (Units 3/4,C), Mathematical Methods (Units 3/4,C)
- **OP:** 17 | English, Maths B

Please visit the handbook for a detailed outline of the course structure. Note: Information is for domestic students only.
Majors

Within our undergraduate environmental practice degree, you are able to choose from four majors. A major is your chosen area of specialisation.

**Biodiversity Assessment and Management**

Gain the skills to enable you to assess and manage all living species, on land and in the water. Learn the essential concepts of biodiversity, biological processes and ecology. Differentiate principles of plant and animal biology and apply them in more advanced and specialised studies. Learn modern field methods and benefit from opportunities to undertake field based subjects in World-Heritage listed reef and rainforest environments.

**Land and Water Management**

Learn about physical geosciences and environmental impacts on land, wetlands, river catchments, and below the surface. You will develop your knowledge of how the Earth functions as a dynamically interactive system. With tutelage from expert lecturers, students master the fundamentals of hydrology, soil science, and geomorphic patterns and processes. Benefit from field-based studies in JCU’s laboratory in Far North Queensland with all its geologically and climatically diverse landscapes, including the Great Barrier Reef catchments.

**Corporate Environmental Management**

Combine business literacy and corporate sustainability with environmental skills to tackle key global sustainability challenges in terms of environmental and socio-political context. Students learn basic concepts of macro and micro economics and their interrelatedness with issues of environmental sustainability, corporate social responsibility, and sustainable development.
“JCU provided plenty of networking opportunities and showed pathways to many different career pathways throughout the degree. Another amazing thing was the awesome students the course brings together - I made friends that will last a lifetime. Studying Environmental Practice set me up for a career that is meaningful and brings me so much joy, and makes the world a more sustainable and just place.

The future jobs prospects are burgeoning, and if you’re passionate about the environment it’s a pathway to an incredibly fulfilling career!”

Alice Walter
BACHELOR OF ENVIRONMENTAL PRACTICE
“Compared to environmental degrees offered by universities in major capital cities, JCU Bachelor of Environmental Practice students benefit from more practical experiences like field- and lab-work. JCU Townsville and JCU Cairns are not only situated in beautiful settings, but also provide students with plenty of opportunities to get their hands dirty. Mastering these skills is something that employers really value in our graduates.”

Zsuzsa Banhalmi-Zakar
LECTURER IN CORPORATE ENVIRONMENTAL MANAGEMENT

Career Opportunities

With a JCU degree in Environmental Practice, you will gain unparalleled skills to address the great sustainability challenges of our lifetime.

Your career options include pathways with organisations such as government departments, mining and construction companies, environmental consultants, renewable energy industries, tourism businesses, heritage groups, local governments, and non-government organisations.

Depending on your choice of majors, you could perform roles such as environment manager, sustainability adviser, project manager, or urban environments and landscape designer.
Study and live in some of the most interesting places in the world. Cairns and Townsville are on the doorstep of the Great Barrier Reef, magnificent rainforests, the savannah region and Outback Australia.

Living on-campus is a great way to make the most of your time at JCU. With five different accommodation options at JCU Townsville, housing over 1,200 students, and a new complex for 300 students at JCU Cairns, living on-campus is a great place to make new friends and immerse yourself into the JCU culture. All rooms at our on-campus residences are single board, with a single bed, study desk, chair, fan, air-conditioning and Wi-Fi. Each residence is different in regards to style of living, culture and atmosphere. There are options for fully catered or self-catered housing. Find out more at jcu.edu.au/accommodation
