Ready today for tomorrow

By studying a joint degree like the JCU Master of Information Technology – Master of Business Administration, you are equipping yourself with in-depth knowledge in two highly adaptable and versatile fields. Completing this joint degree will distinguish you to future employers and give you the skills you need to excel in multiple industry areas.

Studying JCU's Master of Information Technology – Master of Business Administration allows you to learn from teaching staff that are often research leaders in their fields. JCU's professional programs are internationally recognised, meaning that you are being equipped and qualified by programs that will set you up for success.

This course is not only versatile and adaptable, but also flexible. You can study in Townsville, Cairns, Brisbane, and Singapore, and you can study either full-time or part-time. Domestic students also have the opportunity to travel and explore as they study in Singapore through JCU's study-abroad program.

Depending on how you choose to focus and structure your study, the Master of Information Technology will give you skills and expertise in computing and networking, business informatics, or interactive technologies and game design. Students develop highly sought after integrated knowledge that combines information technology, management, and business intelligence.

“The Master of Information Technology – Master of Business Administration provides students with the knowledge and skills to have an impact across two important sectors. Connecting with experts in the classroom and from industry; collaborating with peers; experiencing the advantages of small classes; and immersing in practical, experiential learning ensures graduates of this course are ready to become future leaders with the business and IT know-how to make a difference in all sorts of businesses.”

Associate Professor Jo Pryce

LECTURER

“Are you looking for a career in IT combined with critical business acumen? Offering the flexibility to study at our Queensland or Singapore campuses, JCU paves the way for you to develop the critical knowledge you need to get ahead. Our teaching staff and industry experts will equip you with the skills you need to meet the demands of modern technology-driven business environments. JCU also has a great support network available to help you reach your potential at every stage of your study.”

Dr Art Suwanwiwat

LECTURER, INFORMATION TECHNOLOGY

Career Opportunities

This joint degree will equip you with highly developed skills and expert knowledge that will allow you to work in a variety of industry areas. There is a growing demand for graduates skilled in a range of IT technologies, as well as a worldwide demand for graduates with the critical business acumen to fully leverage these technical skills into profitable products and services.

This joint degree provides training in a variety of computer skills, as well as theory and practical skills in the following:

- Accounting
- Finance management
- Marketing
- Operations management
- E-business technologies
- Multimedia
- Programming
- Networking
- Software.

Postgraduate coursework applications

Apply directly to JCU, either by a form you download, complete and return, or by using the [Online Application Portal](#).

Your application must reach us before the deadline for your course.

ENTRY REQUIREMENTS

Postgraduate courses will usually require completion of an appropriate undergraduate degree for entry. You'll need to include certified copies of qualifications and academic records with your application. For some programs, appropriate work experience or equivalent qualifications will be considered.

The entry requirements for each course are included on the Apply now page for the course.
