Support for this project has been provided by the Australian Government Office for Learning and Teaching.

The views expressed on this website do not necessarily reflect the views of the Australian Government Office for Learning and Teaching.

Aim

A gap exists in the higher education curriculum around supporting community based learning experiences for students in intercultural environments. Further understanding is required of how students' dispositions will affect the extent of their learning.

How can the agentic qualities of a diverse student population be effectively promoted and engaged to assist them to secure global perspectives through their intercultural community based experiences?

Three sub-questions contribute to this research question:

- How do students from diverse backgrounds view themselves as global citizens?
- What pedagogic elements of curriculum and experience are most effective in developing global perspectives for diverse students?
- How can the experiencing of the curriculum promote and develop student mobility for diverse groups?

January – June 2015

Curriculum mapping of all Australian university course offerings to identify explicit foci on 'local/global perspectives' through 'service learning' experiences

July - December 2015

Case studies

Jan - June 2016

Data analysis.

Working symposiums in Sydney (April) and Singapore (June).

Jul-August 2016

Disseminate created resources including interactive e-book of curriculum 'good practice' and 'good learning' guide to engaging students with global perspectives.

Ways to connect with the network

Sign up to be a part of the listserv to connect with other academics and receive project updates. Visit the “Get involved” page on our project website www.localgloballearning.edu.au to subscribe.

Take part in symposiums at either UWS or JCU Singapore during 2016. These will provide an opportunity to come together, reflect on the findings of the research and provide input based on your own experiences or to present your work.

Follow the project on twitter @LocGloLearning where we will provide alerts for any new resources available on the website.

Or make contact with our Project Team Leaders:
