Note-Boxes without specific subjects listed in them may be rearranged to meet your course needs as long as the total number of subjects and degree structure is met. For example, you may choose to move an elective in Year 2 into Year 1. You may also choose to delay a skill subject or BZ5745 until Year 2.

Note-#Prerequisite for this subject is a basic statistics course from university.

Note^-SC5502 is NEW for 2019 and the SP has yet to be confirmed.

Additional Notes:

The Graduate Diploma of Science has the following structure:

1. 2 subjects/6cp of theory for your MAJOR CORE
2. 3 subjects/9cp of SKILL subjects for your major
 - a. 1 compulsory skill subject for your major
 - b. 2 skill subjects from List B
3. 3 subjects/9cp of ELECTIVES (see recommended list below)

It is generally recommended to take 8 subjects per year, with 3 — 4 in SP1 and SP2 and additional subjects in block mode periods (SP3, SP7, SP10 /11) as necessary.

You need to have fulfilled the 'Assumed Knowledge' or Prerequisites for any subject, before you take them. These are listed in the subject's description online which can be found by searching for a subject within **Subject Search** (<https://secure.jcu.edu.au/app/studyfinder/>). For example, EV5502- Advanced GIS assumes you have already taken EV5505— Introduction to GIS or an equivalent at JCU or at your previous university.

Full subject descriptions and timings of all subjects can be found online using the Subject Search tool.

Major Core Subjects: Please select 2 subjects /6cp from the list of **Optional Major Core Subjects**.
