Program Overview

This overview will support the SBTE's understanding of the PST's developmental study journey. Assessment decisions should be based on where the practicum fits within the program. The Preservice Teacher demonstrates engagement with the Graduate Standards as they progress to develop evidence of knowledge, skills and practice.

First Year is an induction into the contexts of teaching and learning. Preservice Teachers explore their own learning and the ways in which teachers learn. They are introduced to the broad educational context of the profession and policy that informs teachers' work, including curriculum frameworks - specifically, knowledge of diverse learners and student's learning and development. Preservice Teachers are developing an agentic professional identity and dedicated to the professional learning of theory, policy and practice to enable them to facilitate learning.

Important Placement Notice

Attendance must be for the entire school day and per the host site's timetable, including meetings and in-school extra-curricular activities. Preservice Teachers (PST) must notify the school immediately if they cannot attend a day due to illness or extenuating circumstances in line with the Student Special Consideration Policy. The day's planning is required to be forwarded to the Site-Based Teacher Educator (SBTE). PST must make up the missed day the following week to ensure the placement requirement of attending days consecutively.

The PST must immediately inform the Student Placements Team of any significant absence from placement (**3 days or more**) as per the Student Special Consideration Circumstances Policy (3.3 Application Type) that may require placement outside the Professional Experience Calendar scheduled time frame and apply for a Professional Experience Special Consideration with the appropriate documentation. The assessment of the application will be based on the following criteria:

- does not interfere with the integrity of the intended learning within the placement as *any adjustments made as the result of a request for Special Consideration must not compromise the integrity of assessment requirements and processes, including the course Inherent Requirements as per the Special Consideration Procedure* (2.1.3)
- does not overlap with coursework timetabled lectures, workshops and subject assessments
- the consecutive day requirement is still met
- the host site has the capacity to continue with the placement

The PST and SBTE **cannot negotiate** changed placement dates outside the Professional Experience Calendar without gaining approval from the process detailed in the above procedures.

Teaching Areas

By **AITSL Program Standards** for **Accreditation of Initial Teacher Education Program requirements**, Primary preservice teachers must complete placements that provide an opportunity to engage in their specialisation. Primary Specialisation are: - English/Literacy, Mathematics/Numeracy, Health & Physical Education and Science

Knowing each school may vary their approach in terms of timing, structure and planning to implement units of work to incorporate Health & Physical Education and Science outside the classroom teacher's responsibilities, we ask the Site Coordinator to assist in supporting the PST **if the specialisation subject** is not timetabled during Placement dates. This can take the form of having the opportunity to visit and engage with another year-level or the specialist teacher to support PST in gaining a **breadth of the curriculum** in the specialisation area.

Professional Experience allows Preservice Teachers to learn within and through practice. Their learning is demonstrated through their contributions to student learning and their professional reflections on their contributions to the classroom and the wider school community.

In making this formal evaluation, Site-Based Teacher Educators will take into consideration the following:

Site-Based Teacher Educators Making the formal evaluation, take the following into consideration	Preservice Teacher Regularly discuss practice and self-appraisal to ensure ongoing development
• QCT Evidence Guide for Supervising Teachers ('Engagement' level) • Preservice Teacher's daily engagement • Preservice Teacher's evidence curated in their Professional Experience Portfolio • Professional dialogue of practice and professional learning during placement	• Curated evidence of practice using the Professional Experience Portfolio • Key strengths, areas of concern and suggestions for continued development toward Graduate Level • Specific feedback on the area of specialisation

By the end of the ED1492 Professional Experience, Preservice Teachers are expected to demonstrate at an Engagement level throughout their practice and Professional Experience Portfolio:

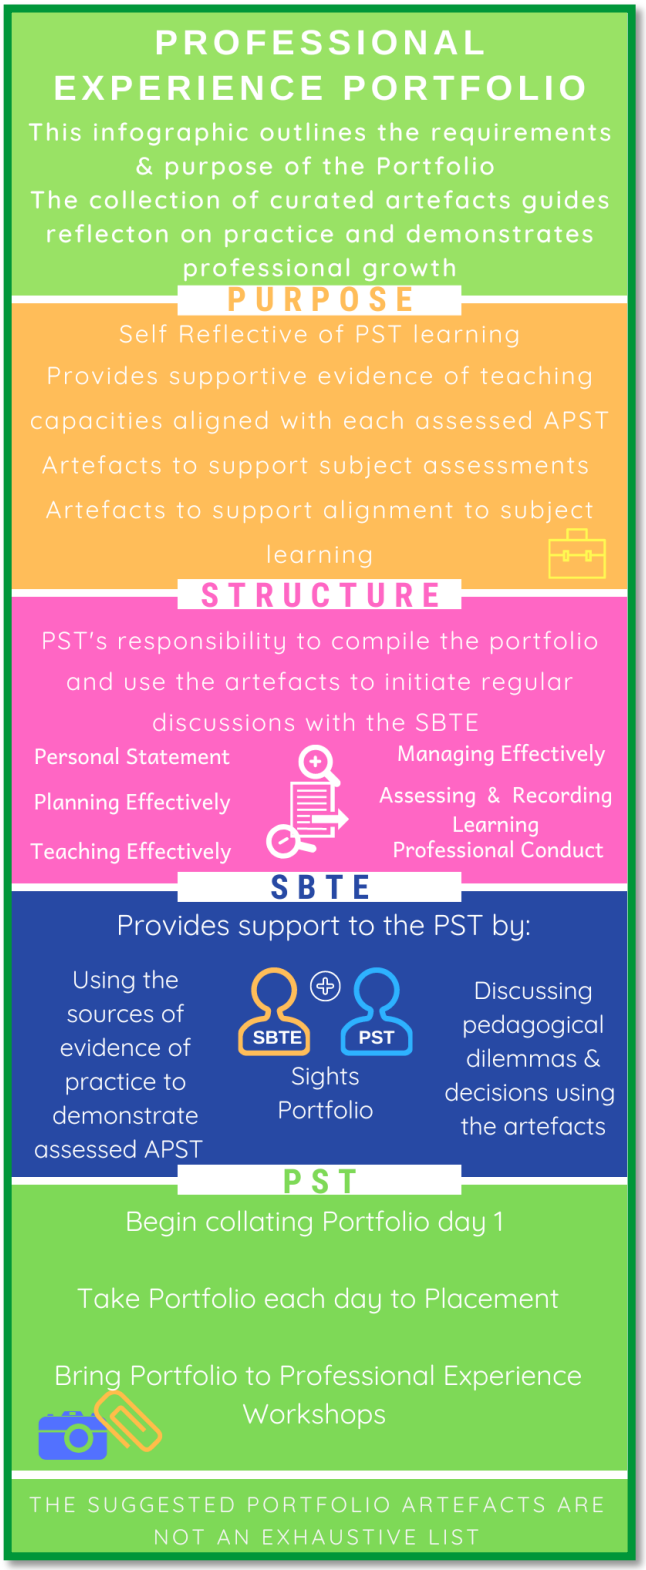
Developing adequately towards graduate level	**Awareness** of the descriptors at the APST Graduate Career Stage; developingconsistency in knowledge, practice and engagement at this level
Not developing adequately	**There is little or no evidence** of knowledge, practice and engagement of awareness that meet the descriptor at the APST Graduate Career Stage

Before the last day of Placement, the Preservice Teacher should organise a time to discuss their professional learning and development. This is an opportunity to provide final feedback to support the PST in planning their next Placement learning goals.

Placement Portfolio Requirement

The purpose is to document *Professional Learning, Growth and Demonstration of Australian Professional Standards*. **This is not an assessable item but is recorded in the Placement Report as completed and discussed throughout the placement.** The collated artefacts support the PST's ongoing professional development in demonstrating how they plan to have an ***Impact For*** student learning and how their professional decisions and enactment of practice had an ***Impact Of*** student learning. The process of curating ongoing professional development through a Portfolio supports the PST to develop the practice of demonstrating evidence as they progress through their degree and career phases.

The folio **informs** and **supports** the SBTE's judgement of the PST's development along with Observation of Practice and Professional Dialogue.



The Portfolio is a working document. It allows the Preservice Teacher to record the 'invisible' work of teaching – the planning, reflecting, and pedagogical decision-making behind all successful teaching episodes. The curated artefacts should be evidence of the assessed descriptors of Australian Professional Standards for Teachers (APST), demonstrating the PST's knowledge. The SBTE and PST view and discuss the Portfolio artefacts **throughout** the placement to support professional dialogue and reflective practice.

support student mathematical learning in everyday contexts?

Day 3	Model and explain teaching strategies, particularly with supporting **numeracy readiness**, addressing the needs and strengths of all students Guide PST to choose 1 student representational of the ***'below' level of achievement*** with numeracy expectations Continue the guided and scaffold planning with PST to prepare to lead a small group maths activity– focus on supporting PST to encourage and support the learners through questions requiring reasoning beyond right or wrong answers Model strategies to engage off-task learners	Observe and record the teaching resources, including ICT & strategies – to support students' **numeracy readiness** Observe and record differentiation strategies for students who require additional support or scaffolding Learner Profile – Observe 1 student **'below'** Satisfactory Achievement Standard and numeracy expectations Observe how focus student views and feels about mathematics and the way they engage in a maths lesson **Discuss preparation for leading a maths number activity for PST to deliver on Day 4 & Day 5** Note the use of mathematical terms and in what context they are used in specialisation. Refer to your **Mathematical Dictionary** compiled for Assessment Item 2 **(ED1491 specialisation students only)** Observe and co-reflect with SBTE on how learners became **reengaged** with learning - **Off Task Observation Template** Provide incidental support to student learning (individual and small groups)

Each day PST initiates professional discussion with SBTE using chosen suggested discussion points & artefacts from the Placement Portfolio to engage in professional dialogue and reflective practice.

How does the School use NAPLAN results? Discuss the debates on NAPLAN contentions. Feeling of NAPLAN with the community - useful or not? Discuss the School's Index of Community Socio-Educational Advantage (ICSEA) four factors. Does the School's diversity and level of complexity reflect NAPLAN results? What gaps are visible in NAPLAN results with the School's diversity profile?
