¹ 2023 fees are based on 8 subjects per year.

² The fees listed are based on the annual tuition fee for students commencing in 2023. Tuition fees will increase each year.

³ The fee for a subject is determined by its credit point value and the course in which you are enrolled.

To calculate an approximate total course fee, multiply the total credit points for your course by the fee per credit point, noting that:

- The displayed fees are only for the calendar year indicated in the table. Fees are subject to annual increase. You will be charged the fee for the year you enrol in the subject, not for the year you commenced your course.
- If you enrol in more subjects than are required, including when you need to repeat a subject already taken, your total course fee may be higher than expected.
