Information for schools

Bring your Year 8 students to JCU Cairns or JCU Townsville for a day of excitement, fun and discovery. The **UniX Year 8** experience provides students with an opportunity to sample what it's like to study different subjects broadly covering science, engineering, medicine, nursing, education, social sciences, business, law and the creative arts. We aim to provide students with various career tasters to help identify and shape their future ambitions, assist them with their subject choices in senior schooling years, and to promote positive post-school pathways to tertiary education.
