Registered Nurses

Registered Nurses provide nursing care to patients in hospitals, aged care and other health care facilities, and in the community. Nursing is considered to be one of the world's most respected professions and, as well as providing care, the nursing role encompasses health promotion and prevention, education and management.

The predicted growth of the Registered Nursing industry is very strong and the occupation is considered to be very large, expecting to grow to more than 300,000 people by 2020. Over 160,000 job openings are likely over the next five years with workers retiring or leaving the workforce. ([Job Outlook retrieved 4 July 2018](#))

There are a range of clinical specialty areas that Nurses may work in, not limited to the following:

- Emergency and/or critical care
- Mental health/psychiatric
- Child and family health
- Aged care and/or palliative care
- Oncology
- Community health

- Rural or remote health
- Surgical
- Peri-operative
- Drug and alcohol rehabilitation
- Disability and rehabilitation
- Paediatrics
- Practice (e.g. GP Clinics)
- Management
- Education and/or policy

Nursing graduates are employed in the following types of settings:

- Hospitals
- Community health centres
- Industry
- Health care agencies
- Schools
- Defence forces
- Government departments
- Non-government organisations (e.g. Red Cross)

With further study nurses can specialize in:

- Midwifery and other specialty nursing areas
- Research (e.g. Universities)
- Leadership
- Education
- Public Health

For further information visit [JCU postgraduate nursing study options](#)

Registered Midwives

Midwifery graduates provide care and advice to women during pregnancy, labour and childbirth, and postnatal care for women and babies in a range of settings including the home, community, hospitals, clinics and health units.

Midwives can become autonomous practitioners, providing continuity of care to women through pregnancy, labour, birth and the postnatal period.

There are currently over 17,000 midwives employed and the predicted growth of midwives over the next five years (to May 2022) is strong, with around 7,000 job openings likely over this time with workers leaving and new jobs being developed. ([Job Outlook retrieved 4 July 2018](#))

Snapshot of JCU Nursing / Midwifery Graduates

Over 1,800 JCU alumni have listed 'nursing' and 'midwifery' within their **LinkedIn profile**.

Graduate Opportunities

Online job sites and directories provide information on job opportunities and **employer requirements and expectations.**

- [Nursing Jobs](#)
- [Ramsay Jobs](#)
- [Mater Health Services North Queensland](#)
- [Care Careers](#)
- [Queensland Health](#)
- [Health Care Australia](#)
- [IPN Medical Centres](#)
- [RNS Nursing](#)
- [Affinity Nursing Recruitment](#)
- [Hays Healthcare](#)
- [JCU Careerhub](#)
- [Australian Job Search](#)
- [Queensland Government Jobs](#)
- [Seek](#)
- [Careerone](#)
- [Indeed](#)
- [Your World Healthcare](#)
- [Defence Jobs Australia](#)

Job opportunities are also posted on employer:

- websites
- Facebook pages
- LinkedIn accounts

- twitter feeds

Follow employers of choice, or nursing recruitment agencies, and ensure you don't miss their updates and job listings, e.g.

- Queensland Health
- Defence Jobs Australia
- Ramsay Health Care
- Mater Health Services

JCU College of Healthcare Sciences emails and Facebook posts also alert you to undergraduate and graduate opportunities.

Registration Requirements

Students enrolled in the B Nursing Science or the Bachelor of Nursing Science – Bachelor of Midwifery, are **registered** with the **Nursing and Midwifery Board of Australia (NMBA)**, through the Australian Health Practitioner Regulation Agency (AHPRA) for the duration of their program of study or until they are no longer enrolled.

Graduates are eligible to **apply for professional registration** with the NMBA through AHPRA.

For further information visit the [NMBA](#) website.

Workplace Experience

Gaining experience before you graduate is essential as employers want to know that you have put the skills and knowledge you have been developing into practice.

In addition to your mandatory **Clinical Placements**, give consideration to gaining further course related experience.

Volunteering is a great way to form professional networks and stand out from the crowd. It enables you to experience different work environments plus demonstrate your values and the causes you care for.

Opportunities to consider include:

- [FNQ Volunteers](#)
- [FNQ Hospital Foundation](#)
- [Townsville Hospital Foundation](#)
- [Volunteering North Queensland](#)
- [My Community Directory](#)

- [Townsville City Council Community Directory](#)
- [Cairns City Council Community Directory](#)

Assistant in Nursing Opportunities

Consider applying for Student Nurse and / or Assistant in Nursing positions whilst completing your degree.

Assistant in Nursing (AIN) or Student Nurses provide patient support services to registered nurses (RN) and enrolled nurses (EN) in general patient care settings. They ensure the daily needs of patients are being met while they are in the health care system.

Graduate Programs

Graduate nurses generally apply for graduate nurse programs offered by the State Government Health Services or private hospitals. For example:

- [Queensland Health Graduate Program](#)
- [Ramsay Jobs](#)
- [Mater Health Services North Queensland](#)

Graduates are generally **recruited during their final year of study** for commencement in the following year.

Successful applicants are offered on the job training and mentoring within the organisation.

Graduate programs are competitive so it is important to understand what is expected and work towards ensuring you have the skills, knowledge and experience expected.

A number of large organisations and government departments offer **Graduate Programs for a variety of positions external to nursing.**

Many of these programs accept graduates from a range of degrees, including nursing and midwifery.
