### INTENSIVE/BLOCK STUDY PERIODS

What are block/intensive study periods?
Enrolling in block mode subjects offers flexibility and can help you fast-track your studies by cutting down on time.

A block mode subject is equivalent to subjects offered over the 13 week period, except they are delivered over a more intensive time period. Usually block mode subjects are taught in the semester break over a two week period with classes scheduled five to six days each week from 9.00am to 5.00pm.

Preparing for block mode subjects
You need to be prepared for block mode subjects as they are highly intensive. Here are some tips to help you prepare:
- You should read at least half of the prescribed text before the first day of class.
- Be very familiar with the learning objectives for each day.
- Note assignment deadlines, some assessment may be due on the first day.

Choosing block mode subjects
Most degrees have subjects available in block mode. To find block mode subject in your degree:

1. Go to eStudent and check your optional subjects on your Study Plan (e.g. electives)
2. Go to Subject Search and select Block in the Attendance Mode field and your home campus in the Campus field
3. This will list all the subjects available on your campus. You then need to choose one that fits the requirements in your Study Plan.

### STUDY PERIODS 81-86

What are Study Periods 81-86

Study Periods 81-86 are used for students in specific courses and subjects. Study Periods 81, 82, and 83 take place in the first half of the year, and fall within Teaching Period 1.

These six study periods all consist of a week of orientation, followed by seven weeks of teaching. There is no overlap between the study periods in order to allow students to focus on one subject at a time.

If you have questions about how your study is organised, contact the [Student Centre in Townsville or Cairns](#).
