ADREs, Colleges and Advisors	 Encourage colleges to steer ECRs towards becoming MPhil advisors, to gain experience. Encourage current students into this pathway to a PhD as an alternative to honours, grad cert, grad dip (best option likely to be discipline specific as well as from student perspective, depth of study and no fees /fee waivers for Masters) Indicate that the depth of project is likely to yield research outcomes in the form of journal articles etc Indicate that the MPhil will increase the pool of potential PhD candidates
	 Indicate that the MPhil helps to establish the internationally recognised Bologna model of 3+2+3 years of study
	Up to 15 credit points of Course work can be built in
	Hones in on a particular topic
	Builds techniques and skills in research
	Great support structures (more info on the MPhil course pages)
Current students	Gives strong research skills from a first research qualification
(dom and int)	Good choice after undergraduate for those looking to a PhD in future
	No fees for domestic students; potential fee waiver option for internationals
	Potential for completion in 2 years or less
	Less investment of time than a PhD (with more support)
	Flexible to suit your life style
	Go on to undertake a PhD with strong potential for early completion in 3 years or less
	Wide range of Professional Development opportunities
	Provides the ability to undertake internships
	Scholarships available
	Enhances professional capability with research experience
External Stakeholders	
Industry	Shorter than PhD
	Industry placements possible
	Candidates gain research skills and specialise in a specific area of research
	Candidates receive ongoing support and build their research skills to be PhD ready
	 Great option for upskilling employees in specific areas and for them to gain excellent research quals in 2 years or less.
Future HDR	Good choice after undergraduate for those looking to a PhD in future
candidates	Internationally more recognised than honours

Funding through RTPs for Domestic students; potential fee waivers for internationals
 Potential for completion in 2 years or less
