## Overview

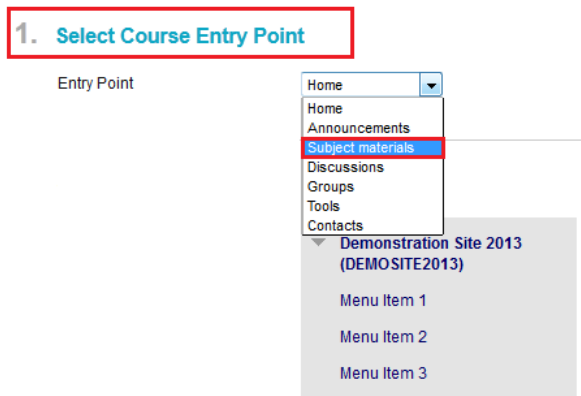

The **Home** page is the default entry point for a subject site. You can change the site entry point to any of the content areas in the left menu.

## Changing the Subject Site Entry Point

1. Turn **Edit Mode ON**
2. From **Control Panel > Customisation**, select **Style**

3. In the **Select Course Entry Point** section, use the drop down menu and select required site entry point.

4. Click **Submit** to set the entry point.

A **green success bar** will display to indicate that the subject style has been updated.

- ■ ■ **Only areas with content will be listed in this drop down menu. For example if Subject Materials is empty, it will not list in entry point drop down menu**
- ■ ■ **If the subject site has a banner, the banner will appear at the selected subject site entry point.**
