 - Enter Room Name & Room Code
 - Click Login
 - Click Stop-In

11:44 | Tuesday 08 October 2019

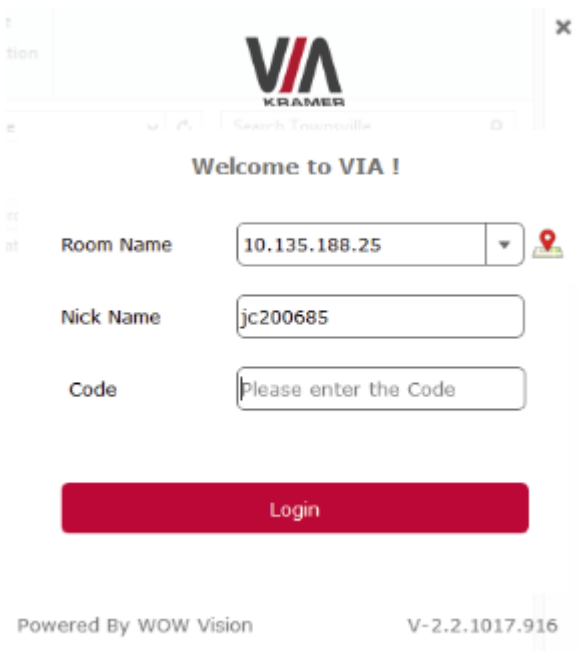

Take note of

- Room Name (IP address)
- 4-digit authentication code

Both are required for the connection to the Wireless Collaborator.

Connect from a PC or laptop

1. Enter the IP address in a browser and press Enter
2. Click on Install VIA, which will download and install the latest version of VIA on the PC or laptop

Enter the **IP address** in the Room Name field

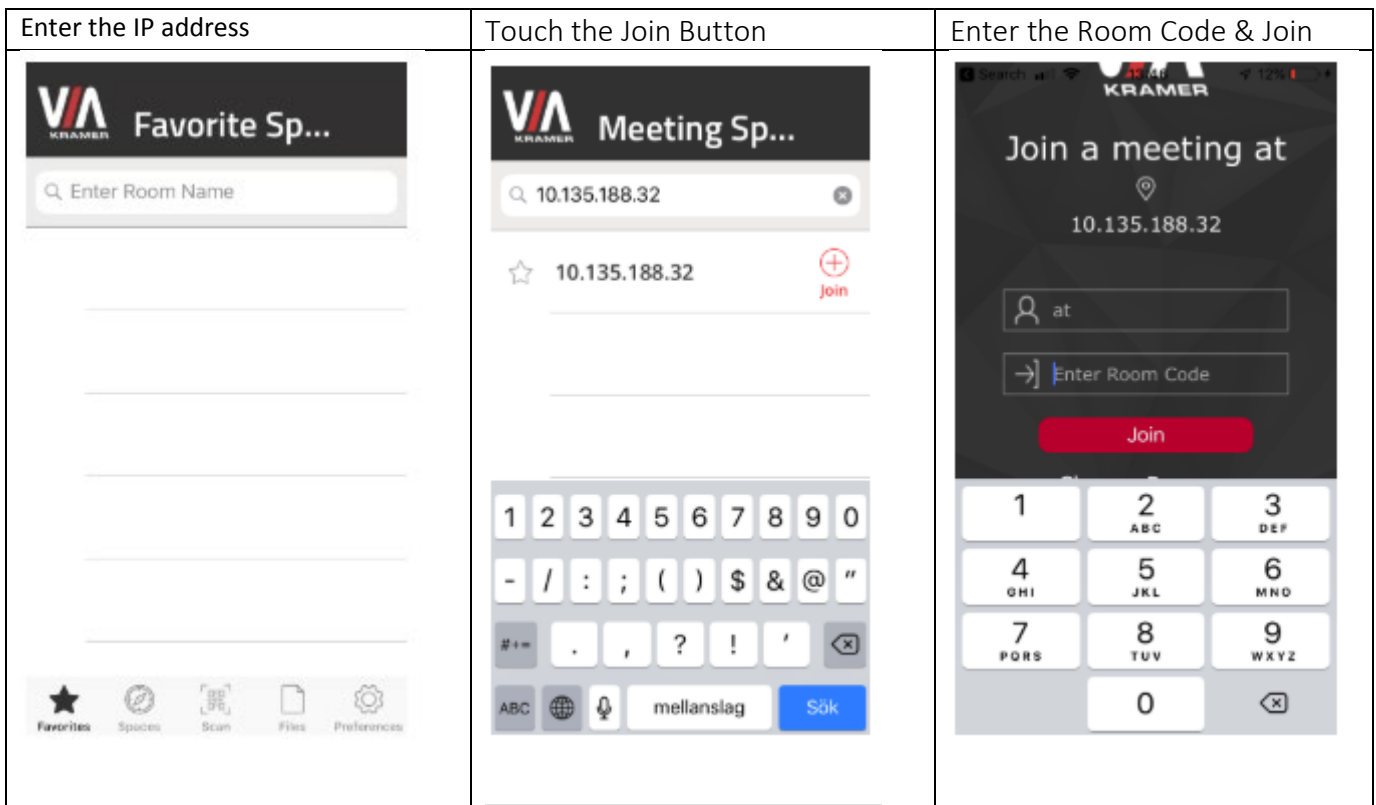

Enter your preferred **Nick Name**

Enter the **Code**

Click on the **Login**

Connect from tablet and smart phone

- Download the VIA app for the iPhone or Android device
- Launch the App and touch the Spaces icon

Alternatively use the table or phone to scan the QR code
