

GRADUATE RESUMES

Pharmacy

Your ability to gain an interview for a graduate position hinges upon the quality of your written application. This is your opportunity to demonstrate to a potential employer that you possess the necessary knowledge, skills and abilities for the position.

It is essential that you tailor your resume to the position, to increase the fit between you and the job.

Market Yourself

Your resume is a marketing tool. Determine what the employer is most interested in and what your best selling points are. Reflect on your past study and work experiences, extracting points which could help to sell yourself to an employer.

You must tailor your resume for **every** job application. Emphasise your strengths as they relate to each particular job and match your skills and abilities to the job you are applying for. Thoroughly research the organisation and the position to determine what the employer is looking for.
