

# What can I do with an Environmental Practice degree?

JCU Environmental Practice graduates are equipped to find solutions to complicated environmental problems.

## Future careers

- Natural Resource Management Specialist
- Environmental or Sustainability Officer or Manager
- Land Management or Biodiversity Project Officer.

## Future growth

- Issues like climate change and fracking have spurred more public interest in the environment. As a result, businesses are increasingly aware of the need to become more sustainable. The need for Environmental Practitioners is growing ever greater.

## Did you know

- If Earth's history is compared to a calendar year, modern humans have existed for about 37 minutes, and
- One third of Earth's natural resources have been consumed in the last 0.2 seconds.

## Median wage

- The average salary for a Environmental Manager is \$130,539\* (AUD) per year.
