

Student Surveys Conducted at JCU

	Survey	Survey Frequency	Survey Focus	Target Audience	
JCU	YourJCU Subject & Teaching Survey	Each Study Period	Student experience of subjects and teaching	All undergraduate and masters coursework students	
	JCU Exit Survey	Weekly for relevant students	Understanding the reasons students withdraw from their studies at JCU	Students who withdraw from all subjects and don't re enrol within a teaching period	
National	Student Experience Survey (SES)	Annually	Higher education experiences regarding skills development, learner engagement, teaching quality, student support, and learning resources	First and latter year undergraduate students	
	Graduate Outcomes Survey (GOS)	Annually	Focuses mainly on graduate destinations such as further study or employment	Undergraduate and postgraduate onshore higher education graduates	
	Graduate Outcome Survey Longitudinal (GOS-L)	Annually	The GOS-L is the longitudinal component of the GOS. The GOS-L takes place 3 years after completion of study.	All graduates who have completed the initial GOS	
	Employer Satisfaction Survey (ESS)	Annually	Employer satisfaction with graduates' generic skills, technical skills, and work readiness	Employers of recent graduates	
International	International Student Barometer (ISB)	Annually	Pre-arrival and ongoing experiences of international students at their chosen institution and country	All International Students	

The Student Experience Survey, Graduate Outcomes Survey, Graduate Outcomes Survey – Longitudinal, Employer Satisfaction Survey make up the Quality for Learning & Teaching (QILT) suite of surveys. The QILT surveys reflect the Australian Government's desire to have KPIs that demonstrate students' engagement with and experience of courses, and the quality of those courses from the students' perspective. The ultimate goal of QILT is to provide a robust and reliable measure of teaching performance throughout the student life cycle. QILT surveys will also be used for internal and external benchmarking purposes.
