

Graduate Employment

Programs, resources, and support for students with disability

There are many services, programs, and resources to assist students with disability prepare for and secure graduate employment. These include:

USEP University Specialist Employment Partnerships

- [USEP University Specialist Employment Partnerships](#) is a **free, on-campus employment service** available to JCU students in their final year or within one year of graduation who have identified as having a disability and are Australian citizens. The consultancy is provided by Mylestones Employment, a Disability Employment Service, who has on-staff specialists in Townsville and Cairns focusing on graduate employment. Students are provided with:
 - Personalised assistance to get a graduate placement or job from an experienced on-campus consultant who specialises in graduate employment for students with disability
 - Support to 'have the conversation' about disability with prospective graduate employers where needed
 - Linkages to industry and supports to assist with finding graduate employment
 - Sourcing of positions and working directly with employers to increase disability confidence in their workplace before commencement of employment where needed.

Internship and Mentoring Programs

- [PaTH Internships](#) are available to eligible students aged between 17 and 24 years of age. The internships are short, unpaid placements in the workplace and run for 30-50 hours over four to 12 weeks. The internships provide students with the opportunity to gain experience and demonstrate their skills to employers. Students are eligible for a fortnightly additional incentive payment of \$200.
- [Stepping Into Internships](#) are run by the [Australian Network on Disability](#) and provide eligible university students a paid internship with a leading public or private sector employer. The internship is a minimum of 152 hours (four weeks if full time) during the summer and winter semester breaks. The Australian Network on Disability can assist with workplace adjustments if required.
- [PACE program](#) is also run by the Australian Network on Disability and is a mentoring program which matches students with a disability with professionals to help reach their personal development goals and build workplace confidence.

Graduate Employment Opportunities

- [GradConnection](#) is an online platform which links students to graduate jobs, graduate programs, and internships. Students can search for employers and opportunities with specific support for applicants with disability.
- [RecruitAbility](#) is an Australian Government scheme designed to attract people with disability to apply for employment in the Australian Public Service (APS). It is applied to all vacancies in the APS. To participate in the scheme, applicants must disclose their experience with a disability, but they are not required to provide further information on the actual disability. Mentors are allocated to provide career advice and support.
- [Will You Support Me? Spotting Inclusive Employers](#) - this article explains how to identify inclusive employers who recognise the benefits of employing people with disability and are willing and able to support eligible students.
