Within our undergraduate business degree, you are able to choose from seven majors. A major is your chosen area of specialisation. Not all majors are available at all campuses. The handbook provides detail about the subjects you can study within each major and the campuses each major is available at.

**Business Intelligence and Information Systems**

Learn how to integrate information technology systems and data into business strategies and be integral to your organisation’s operational strategy. As a business intelligence analyst, you will have the knowledge needed to use data for marketing purposes, create cost-effective systems and identify business opportunities.

With the ever-increasing use of technology and the importance of data and data security, you will be highly employable in a growing industry. Upon graduation, you can apply for membership of the Australian Institute of Management (AIM).

**Hospitality and Tourism Management**

Learn to manage tourism and hospitality attractions, tours, events, and services. Understand your target market and create tailored experiences. Develop practical skills to handle the logistics and intricacies of event management. Manage, plan, and market with an in-depth understanding of the industry. Visit sites and conduct case studies to ground your learning in real scenarios.

**Human Resources Management**

Cultivate a competitive edge in business with a Human Resources Management major. Understand the value of motivated employees and create environments that help people thrive. Build communication skills and positive employment relations to boost performance and manage organisational change.

**International Business**

Examine the challenges and advantages of conducting business in a complex global environment. Cultivate a love of developing strategies and planning to operate multi-national enterprises. Learn to carve out a competitive, sustainable business position in the international marketplace. Gain practical skills with a local industry placement or study a semester in Singapore.

**Management**

Learn to lead businesses in highly competitive environments, solve complex organisational problems, and plan effectively. Discover how to hire the right employees and use management techniques to cultivate success. Become confident in managing finances and resources as well as directing business operations in a fast-paced setting. Examine existing businesses for theoretical and practical insights.

**Marketing for the Digital Age**

Harness both traditional and digital marketing to reach the right audience every time. Build specific and comprehensive profiles for target audiences and become effective at growing a new customer base. Transfer your skills across organisations in private, public, and non-profit sectors. Stand out in a competitive marketplace with industry knowledge and sustainable marketing strategies.

**Sports and Events Management**

Gain the skills to work in a dynamic, fast-paced global industry with the Sports and Events Management major. Benefit from strong industry connections and first-hand practical experience. Graduate with a strong understanding of employer needs and the ability to create, organise, and coordinate sports and public events on both small and large scales. Tailor your degree to specialise in your preferred industry.
“Studying a degree in business allows someone to gain strong foundations and knowledge that can be used across several different roles in many different industries. The opportunities can be endless. The most enjoyable part of the Bachelor of Business was being able to participate in field trips, where I was able to visualise the theory of the course being implemented into real life scenarios and business operations. I was fortunate in my final year of my degree to be selected through JCU internship program to undertake placement in the field of Human Resources. This internship allowed me to gain practical learning experiences, which lead me to obtain my first position out of university.”
