Overview

Blackboard Analytics for Learn classifies items in LearnJCU subject sites as Content, Tools or Assessment items. These classifications assist in understanding and analysing site design within and across subjects, and across the university. Items are listed under relevant classifications below.

Content

Add a File	McGraw-Hill
Audio	Module Page
Basic LTI Link	NBC Content
CafeScribe Content	Podcast
Content Folder/Content Area	SCORM Engine
Course Link	SlideShare Presentation
Document Package	Syllabus
File	Textbooks
Flickr Photo	Tools Area
Google Scholar	URL
Image	Video
Item	YouTube
Lesson Plan	

The Content Collection is a file repository with several sophisticated features for working with content. The Content Collection provides repositories for Blackboard Learn courses and users, and is managed through the Administrator Panel. It also allows users to store, share, and publish content within folders.

Tools

Add a Factoid	Connect Assignment Speech
Add a Learning Object	Connect Assignment Writing
