Program Overview

This overview will support the SBTE's understanding of the PST's developmental study journey. Assessment decisions should be based on where the Professional Experience fits within the program and how the PST demonstrates engagement with the Graduate Standards.

With an understanding of learners, preservice teachers progress to their 2nd level of subject to begin developing knowledge of curriculum and planning for diverse students through individual and sequences of lessons with attention to numeracy and literacy demands in selected curricula. They justify and demonstrate a selection of pedagogical knowledge, frameworks and practices in **planning for learning**, enactment of teaching, decision-making for positive behaviours and an environment for learning and assessing learner progress. The placements provide an opportunity to translate the curriculum into specific content skills that link to assessed learning.

Important Placement Notice

Attendance must be for the entire school day and per the host site's timetable, including meetings and in-school extra-curricular activities. Preservice Teachers (PST) must notify the school/centre immediately if they cannot attend a day due to illness or extenuating circumstances in line with the Student Special Consideration Policy.

The day's planning is required to be forwarded to the Site-Based Teacher Educator (SBTE). PST must make up the missed day the following week to ensure the placement requirement of attending days consecutively.

The PST must immediately inform the Student Placements Team of any significant absence from placement (**3 days or more**) as per the Student Special Consideration Circumstances Policy (3.3 Application Type) that may require placement outside the Professional Experience Calendar scheduled time frame and apply for a Professional Experience Special Consideration with the appropriate documentation. The assessment of the application will be based on the following criteria:

- does not interfere with the integrity of the intended learning within the placement as *any adjustments made as the result of a request for Special Consideration must not compromise the integrity of assessment requirements and processes, including the course Inherent Requirements as per the Special Consideration Procedure* (2.1.3)
- does not overlap with coursework timetabled lectures, workshops and subject assessments
- the consecutive day requirement is still met
- the host site has the capacity to continue with the placement

The PST and SBTE **cannot negotiate** changed placement dates outside the Professional Experience Calendar without gaining approval from the process detailed in the above procedures.

Teaching Areas

By **AITSL Program Standards** for **Accreditation of Initial Teacher Education Program requirements**, Secondary preservice teachers are required to complete placements in their approved secondary teaching areas. Preservice teachers should not be placed in subjects that are 'out of field'. For the purposes of Professional Experience, they cannot be assessed and demonstrate Graduate Standard in 'out of field' subjects. Site Coordinators are asked to support the arrangement of an appropriate timetable that covers preservice teachers' **first and second teaching areas**, with opportunities to teach **junior secondary curricula** for the entirety of the Placement.

Placement Support

JCU Resource Portfolio

James Cook University recognises the need for all our placement partners, including SBTEs who accept the role of supervising a PST, to have easy, fast and independent access to all resources and information required to support their preparation for hosting a student in their classroom. The link to our Professional Experience Resource Portfolio is included in every placement confirmation email for the SC to disseminate.

Drop-In Sessions

James Cook University acknowledges the importance of providing ongoing support to SCs and SBTEs before a placement. JCU supports and facilitates an effective partnership to enhance the quality and success of the placement by offering online sessions to create regular communication between all stakeholders.

JCU offers an optional Drop-In Support Session for both SCs and SBTEs. The sessions are offered via LearnJCU. Please see the School Partnership Support Document for the links for all sessions.

The purpose is to provide SCs and SBTEs an access platform to ask any questions they may have to gain the following:

- Mutual understanding of placement requirements and progression of learning
- Clarification of placement requirements and resources
- General expectations regarding the assessment of PST and reporting of PST development at either Engagement or Achievement Level
- Knowledge of the JCU Professional Experience Program

Preservice Teacher Request for Intervention

The process is designed for Preservice Teacher use only to trigger a response from the Student Placement Team at JCU to the Preservice Teacher submitting the notification. The Form is located in the LearnJCU Professional Experience Community Site.

Upon receipt of the Intervention Notification, the Student Placement Team will notify the Professional Experience Academic Coordinator [Education]. The coordinator will contact the Preservice Teacher to discuss the concern. If necessary, the coordinator will visit the School to discuss the matter with the parties concerned – the Preservice Teacher, Site Coordinator and/or Site-Based Teacher Educator.

The "At-Risk Notification" process is designed to alert the Preservice Teacher and JCU to areas of concern identified by the Site-Based Teacher Educator and Site Coordinator. The At-Risk Notification process should be used in any of the following circumstances:

- Where the Site-Based Teacher Educator and Site Coordinator believe that the Preservice Teacher could, with additional effort and attention, work to demonstrate competence in all criteria required in the Professional Experience.
- Where the Preservice Teacher is failing to respond effectively to feedback provided by the Site-Based Teacher Educator and Site Coordinator.
- Where the Site-Based Teacher Educator and Site Coordinator believe that intervention from JCU would assist the Preservice Teacher.

The "Preservice Teacher At-Risk Notification" process and form submission should be initiated **as early** as possible. This action **allows time** for intervention to occur.

On receipt of the At-Risk Notification form

- Student Placement Team contacts the Professional Experience Academic Coordinator [Education]

- Contact is made with the Site-Based Coordinator to discuss the concerns

- Based on conversations, an arrangement is made for either the PEAC or Academic Liaison to visit to support the Preservice Teacher and the Supervising Teacher

- In collaboration, the JCU Team, School and Preservice Teacher develop an action plan of support that serves the best interest of all parties, including a time for review

At-Risk Form – 2024 JCU Professional Experience Resource Portfolio

If further action is required, the Site Coordinator should contact the Professional Experience Academic Coordinator [Education] via email: trisha.telford@jcu.edu.au or phone (07) 47815424.

> Early notification to JCU provides time for intervention before the completion of the Placement

Professional Experience is an opportunity for Preservice Teachers to learn within and through practice. Their learning is **demonstrated** through their contributions to student learning and their **professional reflections** on their contributions to theclassroom and the wider school community.

Site-Based Teacher Educators Making the formal evaluation, **take the following into consideration**	Preservice Teacher **Regularly discuss** practice to ensure ongoing development

Before the last day of Placement, the Preservice Teacher should organise a time to discuss their final assessment and Professional Experience Report with their Site-Based Teacher Educator. This is an opportunity to provide final feedback to support the PST in planning their next Placement learning goals.

Placement Portfolio Requirement

The purpose is to document *Professional Learning, Growth and Demonstration of Australian Professional Standards*. **This is not an assessable item but is recorded in the Placement Report as completed and discussed throughout the placement.** The collated artefacts support the PST's professional development in demonstrating how they plan to have an *Impact For* student learning and how their professional decisions and enactment of practice had an *Impact Of* student learning. The folio supports the PST to develop the practice of demonstrating evidence as they progress through their degree.

The folio informs and supports the SBTE's assessment of the PST's development along with Observation of Practice and Professional Dialogue.

Level 2 Planning and Teaching Focus

Preservice Teachers are introduced to the Evidence-Informed Teaching Cycle (PTAR). The subject ED2491 is structured around the enactment of the reflective teaching cycle. The weekly tasks of the placement are designed for the Preservice Teachers to be exposed to, observe, and enact the teaching cycle. To support the PST to engage in the Teaching Cycle, they begin by understanding the learner. Upon the analysis of the data, they are then able to design a safe and supportive environment conducive to student learning progression and learning activities that build on student strengths, readiness, interests, well-being, and experiences to maximise engagement. During each placement, they ethically develop Learner Profiles to be included in their Portfolio.

ED2491 OVERVIEW

Summary of Evidence

A summary of evidence required for ED2491 Assessment Task 3

Please ensure that you have collected the information/documents outlined below as each item is **essential to completing** Assessment Task 3 in this subject. All evidence must be collected from the same class/teaching area e.g. Year 9 Science or Year 7 HASS

Summary of Evidence Chart		
When to collect	**De- identified** Evidence required	Purpose
You will collect this data when you complete **Appendix A**	**Decisions for Intended, enacted and assessed Learning** Whole Class Profile • Class size and gender composition • Preliminary grouping of class into levels of learning readiness considering: ➢ Your own observations of engagement ➢ Term 1 level of achievement for English, Math, Science & HASS for all students ➢ Demonstrated achievement levels in literacy and numeracy ➢ Inclusion/participation needs (e.g. whether or not the student is working from an ICP, and at which curriculum year level) • Behaviour (e.g., observations, conversations with SBTE) • Observations of student engagement • Family background • Home access to computer and internet	You will include this profile in Assessment Item 3 Part A. Part A asks you to draw on data from your class to inform planning and teaching decisions for the lesson you will teach during Profex, and that forms the focus of your evaluation in AT3.
You will collect this data when you complete **Appendix B**	**Decisions for Intended, enacted and assessed Learning** Learner Profiles • At least 3 profiles, representative of your preliminary learning readiness grouping as noted in your whole class profile: ➢ 1 student profile representing students currently working below the expected standard for the class ➢ 1 student profile representing students currently working at the expected standard for the class ➢ 1 student profile representing students currently working above the expected level for the class	You will include these profiles in Assessment Task 3 Part A. Part A asks you to draw on data from your class to inform planning and teaching decisions for the lesson you will teach during Profex, and that forms the focus of your evaluation in AT3. In particular, preliminary grouping of learning readiness and profiles of students representing each group will inform differentiation decisions in the lesson.
You will collect this data when you complete **Appendix C**	**Decisions for Intended, enacted and assessed Learning** Classroom Observations • Classroom Management • Lesson Structure • Teaching Strategies • Indicators of Student Engagement	These observations will support your planning a lesson on Day 4 of the Placement

	Classroom Environment that supports Learning	
You will collect this data when you complete **Appendix D**	• Tier 1 Learning Environment Plan	You will develop this plan prior to the Placement as part of Assessment Item 2 You will enact the plan during your Day 4 lesson You will analyse this enactment for Assessment Item 3 Part B
You will collect this data **A, B, C, D** To inform your decisions to plan and teach your Day 4 Lesson using **Appendix E**	• Informed by the analysis of **A, B, C, D** • One lesson plan demonstrating a teacher-directed learning approach including differentiation in order to meet learner needs	You will include this lesson plan in Assessment Task 3 Part A. You will evaluate your lesson plan in Part A.
You will collect this data when you plan and teach your lesson	• **De-identified** student work samples that demonstrate learning in response to the learning intent of the above lesson and aligned with the success criteria for the lesson. • Collect **at least** three samples representative of student performances (1) at standard, (2) below standard, and (3) above standard	You will include a summary of your analysis of these work samples in Assessment Task 3 Part A. This analysis will inform the evaluation of your lesson plan in Assessment Item 3 Part A, and inform the proposal of next step learning that will be the focus of a follow-up lesson planned with a student-centred approach and submitted for Assessment Item 3 Part A. Provide task-level feedback for/on each work sample that identifies key features of an acceptable performance of learning and where they can be extended Assessment Item 3 Part A
NOTE: Ensure your **Ethical Collection of Data about Learners:** Cover Sheet for data collected about learners is signed and submitted with Assessment Task 3.

Constructive feedback will support the PST in planning for their next phase of Placement, building upon enacting the teaching and learning cycle.

How did the PST consider the learner to plan to learn? How did they reflect upon their observations to make planning decisions?

How did the PST consider the need for differentiated teaching strategies with attention to literacy and numeracy, including resources customised or created by the SBTE, to facilitate student learning through differentiated strategies? How did the PST's choices of teaching strategies facilitate student learning?

Consider how the PST explored classroom management to support and foster engagement and achievement.

Is the PST receiving constructive feedback in a positive and professional manner?
