## Program Overview

This overview will support the SBTE's understanding of the PST's developmental study journey. Assessment decisions should be based on where the practicum fits within the program. The Preservice Teacher demonstrates engagement with the Graduate Standards as they progress to develop evidence of knowledge, skills and practice.

First Year is an induction into the contexts of teaching and learning. Preservice Teachers explore their own learning and the ways in which teachers learn. They are introduced to the broad educational context of the profession and policy that informs teachers' work, including curriculum frameworks - specifically, knowledge of diverse learners and student's learning and development. Preservice Teachers are developing an agentic professional identity and dedicated to the professional learning of theory, policy and practice to enable them to facilitate learning.

## Important Missing Placement Notice

Attendance must be for the entire school day and per the host site's timetable, including meetings and in-school extracurricular activities. Preservice Teachers (PSTs) must notify the school immediately if they are unable to attend a day due to illness or extenuating circumstances, in accordance with the Special Consideration – Missed Placement policy. The day's planning is required to be forwarded to the Site-Based Teacher Educator (SBTE). The **missed day (s) (up to 3 days)** are to be completed the following week to ensure the placement requirement of attending days consecutively.

For a missed placement of **three days or more, the PST must submit a Missed Placement Application Form along with the required** documentation. The assessment of the application will be based on the following criteria:

- does not interfere with the integrity of the intended learning within the placement, as *any adjustments made must not compromise the integrity of assessment requirements and processes, including the course [Inherent Requirements](#)*
- does not overlap with coursework timetabled lectures, workshops and subject assessments
- the consecutive day requirement is still met
- the host site has the capacity to continue with the placement

**If the criteria for the missed placement application are met, progression may still be delayed due to the four criteria mentioned above.**

The PST and SBTE **cannot negotiate** changed placement dates outside the Professional Experience Calendar without gaining approval from the process detailed in the above procedures.

### Teaching Areas

According to the AITSL Program Standards for Accreditation of Initial Teacher Education Programs, Secondary preservice teachers are required to complete placements in their approved secondary teaching areas. Preservice teachers should not be placed in subjects 'out of field'. For the purposes of Professional Experience, they cannot be assessed and do not demonstrate Graduate Standards in 'out-of-field' subjects. Site Coordinators are asked to support the arrangement of an appropriate timetable that covers preservice teachers' **first and second teaching areas**, with opportunities to engage in a balance across secondary year levels.

### **Placement Support**

Procedures to assist both PST and SBTE during placement

## JCU Resource Portfolio

James Cook University recognises the need for all our placement partners, including SBTEs who accept the role of supervising a PST, to have easy, fast and independent access to all resources and information required to support their preparation for hosting a student in their classroom. The link to our [Professional Experience Resource Portfolio](#) is included in every placement confirmation email for the SC to disseminate.

### Drop-In Sessions

James Cook University acknowledges the importance of providing ongoing support to SCs and SBTEs before a placement. JCU supports and facilitates an effective partnership to enhance the quality and success of the placement by offering online sessions to create regular communication between all stakeholders.

JCU offers an optional Drop-In Support Session for both SCs and SBTEs. The sessions are offered via LearnJCU. Please refer to the School Partnership Support Document for links to all sessions.

The purpose is to provide SCs and SBTEs an access platform to ask any questions they may have to gain the following:

- Mutual understanding of placement requirements and progression of learning
- Clarification of placement requirements and resources
- General expectations regarding the assessment of PST and reporting of PST development at either Engagement or Achievement Level
- Knowledge of the JCU Professional Experience Program

## Preservice Teacher Request for Intervention

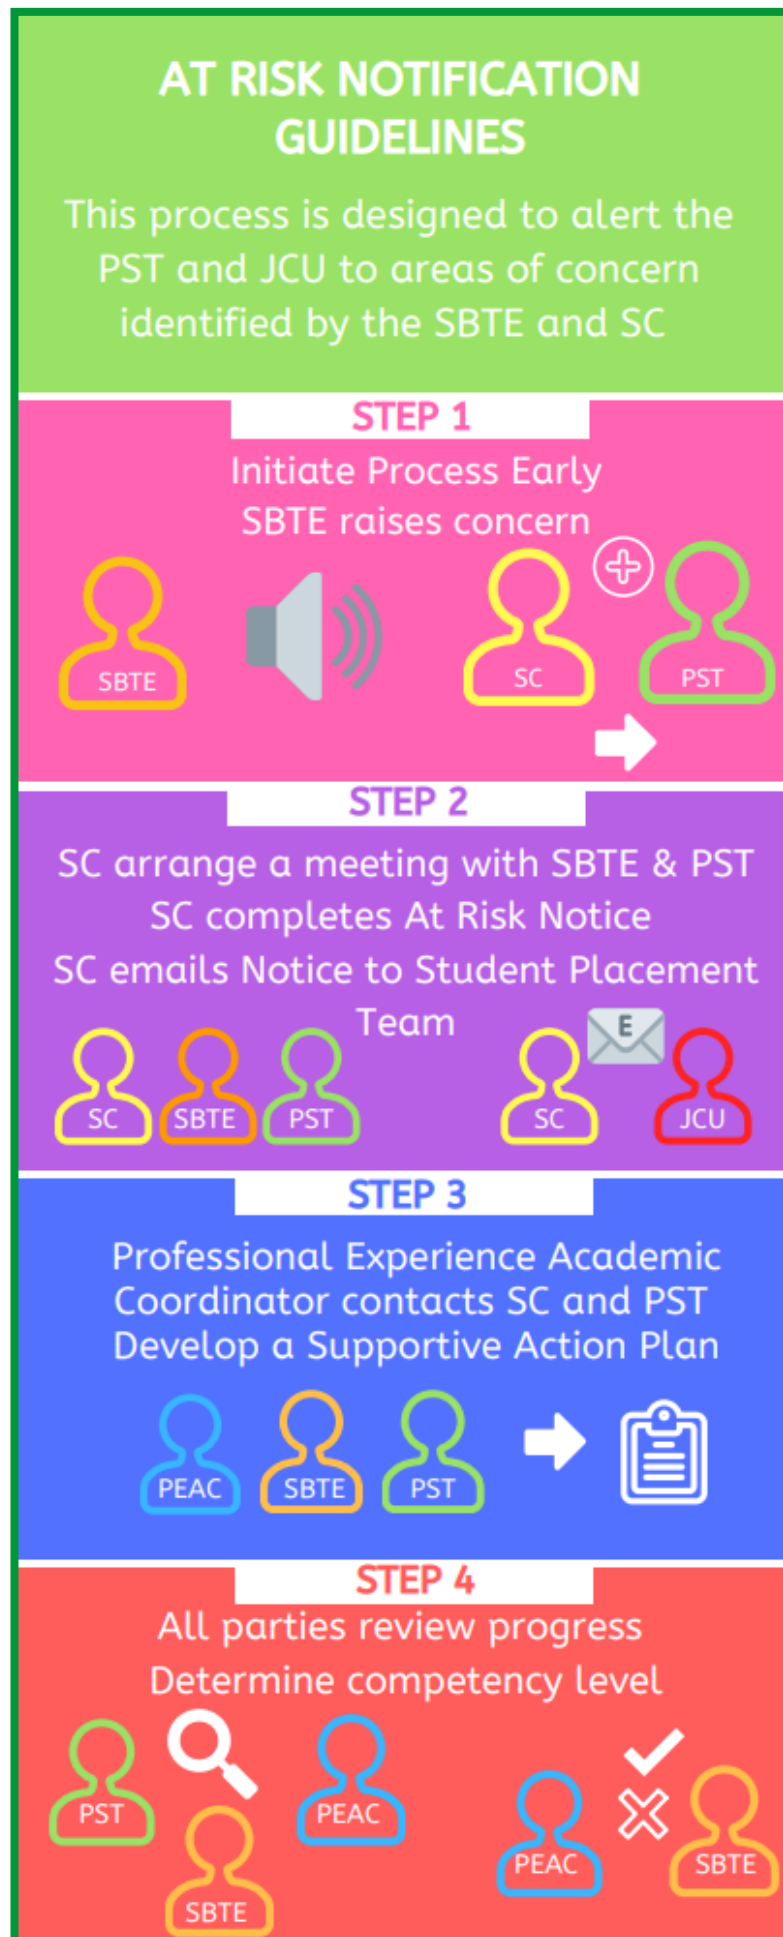

The Intervention Notification is designed for the Preservice Teacher to use, triggering a response from the Student Placement Team. The submission of the form indicates possible intervention while on Placement. The PST submits the notification, which is located in the Professional Experience Community Site

Upon receipt of the Intervention Notification, the Student Placement Team will notify the Professional Experience Academic Coordinator (Education). The Professional Experience Coordinator will contact the PST to discuss the concern. If necessary, the Professional Experience Academic Coordinator will visit the school to discuss the matter with all parties concerned.

## SBTE Request for an At-Risk Early Intervention

## Purpose The At-Risk Notification

The "At-Risk Notification" is designed for use ONLY by **Site-Based Teachers and Site Coordinators**.

The "At-Risk Notification" process is designed to alert the Preservice Teacher and JCU to areas of concern identified by the Site-Based Teacher Educator and Site Coordinator. The At-Risk Notification process should be used in any of the following circumstances:

- Where the Site-Based Teacher Educator and Site Coordinator believe that the Preservice Teacher could, with additional effort and attention, work to demonstrate competence in all criteria required in the Professional Experience.
- Where the Preservice Teacher is failing to respond effectively to feedback provided by the Site-Based Teacher Educator and Site Coordinator.
- Where the Site-Based Teacher Educator and Site Coordinator believe that intervention from JCU would assist the Preservice Teacher.

The "Preservice Teacher At-Risk Notification" process and form submission should be initiated **as early** as possible. This action **allows time** for intervention to occur.

On receipt of the At-Risk Notification form

- Student Placements Team contacts the Professional Experience Academic Coordinator [Education]
- Contact is made with the Site-Based Coordinator to discuss the concerns
- Based on conversations, an arrangement is made for either the PEAC or Academic Liaison to visit to support the Preservice Teacher and the Supervising Teacher
- In collaboration, the JCU Team, School and Preservice Teacher develop an action plan of support that serves the best interest of all parties, including a time for review

At-Risk Form – [JCU Professional Experience Resource Portfolio](#)

If further action is required, the Site Coordinator should contact the Professional Experience Academic Coordinator [Education] via email: [trisha.telford@jcu.edu.au](mailto:trisha.telford@jcu.edu.au) or phone (07) 47815424.

Early notification to JCU provides  
time for intervention before the  
completion of the  
Placement

## Assessing Level Professional Experience

Professional Experience allows Preservice Teachers to learn within and through practice. Their learning is demonstrated through their contributions to student learning and their professional reflections on their contributions to the classroom and the wider school community.

In making this formal evaluation, Site-Based Teacher Educators will take into consideration the following:

Site-Based Teacher Educators	Preservice Teacher
Making the formal evaluation, take the following into consideration	Regularly discuss practice and self-appraisal to ensure ongoing development
<ul style="list-style-type: none"> <li>• <a href="#">QCT Evidence Guide for Supervising Teachers</a> ('Engagement' level)</li> <li>• Preservice Teacher's daily engagement</li> <li>• Preservice Teacher's evidence curated in their Professional Experience Portfolio</li> <li>• Professional dialogue of practice and professional learning during placement</li> </ul>	<ul style="list-style-type: none"> <li>• Curated evidence of practice using the Professional Experience Portfolio</li> <li>• Key strengths, areas of concern and suggestions for continued development toward Graduate Level</li> <li>• Specific feedback on the area of specialisation</li> </ul>

By the end of the ED1491 Professional Experience, Preservice Teachers are expected to demonstrate at an Engagement level throughout their practice and Professional Experience Portfolio:

- Early development of knowledge and understanding of the implications for the learning of students' physical, cultural, social, linguistic, and intellectual characteristics.
- A developing knowledge of the literacy and numeracy teaching strategies and their application in teaching areas.
- A developing understanding of the principles of inclusion.
- Developing knowledge of strategies that support a positive learning environment.
- Exploring ways to identify support for students' well-being and safety, working within school and system curriculum and legislative requirements.
- Developing skills in observing and reflecting on teaching and learning processes.
- Professional conduct that reflects the QCT Code of Conduct, Professional Boundaries and the school/centre's code of conduct.

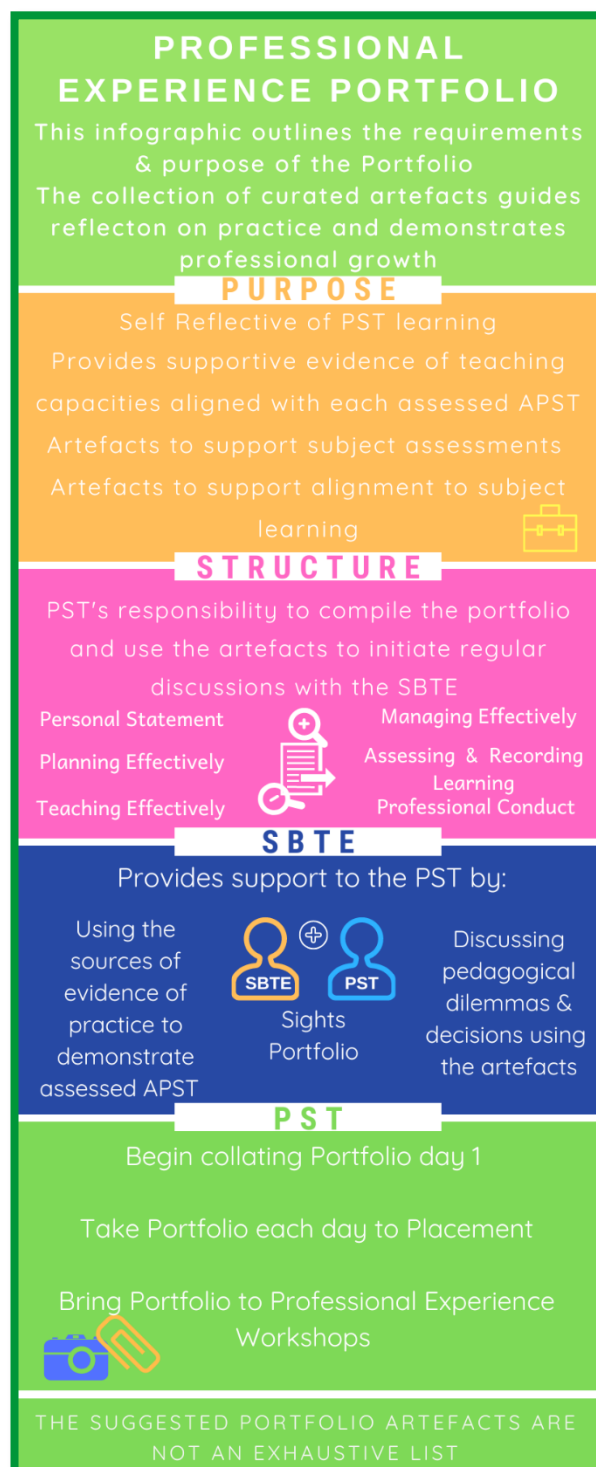

Assessment Ratings	
Well developed	<b>Consistent</b> evidence of knowledge, practice and engagement that demonstrate the APST descriptors at the Graduate Career Stage
Developing adequately towards graduate level	<b>Awareness</b> of the descriptors at the APST Graduate Career Stage; developing consistency in knowledge, practice and engagement at this level
Not developing adequately	<b>There is little or no evidence</b> of knowledge, practice and engagement of awareness that meet the descriptor at the APST Graduate Career Stage

Before the last day of Placement, the Preservice Teacher should organise a time to discuss their professional learning and development. This is an opportunity to provide final feedback to support the PST in planning their next Placement learning goals.

## Placement Portfolio Requirement

The purpose is to document *Professional Learning, Growth and Demonstration of Australian Professional Standards*. **This is not an assessable item but is recorded in the Placement Report as completed and discussed throughout the placement.** The collated artefacts support the PST's ongoing professional development in demonstrating how they plan to have an **Impact For** student learning and how their professional decisions and enactment of practice had an **Impact Of** student learning. The process of curating ongoing professional development through a Portfolio supports the PST in developing the practice of demonstrating evidence as they progress through their degree and career phases.

The portfolio serves as a collection of tangible evidence to support the SBTE's judgments about the preservice teacher's demonstration of the APSTs along with Observation of Practice and Professional Dialogue.

The Portfolio is a working document. It allows the Preservice Teacher to record the 'invisible' work of teaching – the planning, reflecting, and pedagogical decision-making behind all successful teaching episodes. The curated artefacts should demonstrate the assessed descriptors of the Australian Professional Standards for Teachers (APST), evidencing the PST's knowledge. The SBTE and PST view and discuss the Portfolio artefacts **throughout** the placement to support professional dialogue and reflective practice.

## ED1421 Professional Experience Portfolio

A portfolio is an organised, goal-driven documentation of your professional growth and achieved competence in the complex act of teaching. Campbell, Cignetti, Melenzyer, Nettles and Wyman 2004: 3-4).

The table below summarises the relevant artefacts of the Professional Experience Portfolio for the placement. It is a **working document** to be used continually throughout the placement, **guiding reflective practice discussions** between the SBTE and PST. The specific artefacts should be evidence of the relevant Australian Professional Standards for Teachers (APST) descriptors.

The Preservice Teacher will discuss the required artefacts for assessment before or on the first day of the Professional Experience Phase with the Site Based Teacher. The Site Based Teacher Educators view the completed Professional Experience Portfolio to **inform their assessment of the Preservice Teacher's performance** over the Professional Experience Phase. The SBTE, SC or visiting JCU representative may view the Portfolio at any time throughout the placement.

The table below summarises the relevant artefacts of the Professional Experience Portfolio for the placement. It is a **working document** to be used **continually** throughout the placement, guiding reflective practice discussions between the SBTE and PST. The specific artefacts should be evidence of the relevant Australian Professional Standards for Teachers (APST) descriptors.

The Preservice Teacher will **discuss** with the Site-Based Teacher the required artefacts for assessment before or on the first day of the Professional Experience Phase. The Site-Based Teacher Educators view the completed Professional Experience Portfolio to **inform** their assessment of the Preservice Teacher's performance during the Professional Experience Phase. The SBTE, SC, or visiting JCU representative may **view** the Portfolio at any time throughout the placement.
