Course information – Master of Science

The Master of Science degree is structured such that students take sets of (1) foundational '*knowledge*' specific to their major, (2) technical and / or analytical '*skills*' subjects, and (3) *elective* subjects.

Use this document to plan out what subjects you will take and when. Consult with your course advisor about the nature of subjects, research and internship pathways and any queries you may have. The course advisor for each major in the Master of Science programs is listed here. When you are ready to enrol in subjects proceed to your eStudent account.

Students wishing to take a semester long internship or research project need to transfer to the MSc Professional degree. This should be done before you start your course at JCU.

Aquaculture, Science & Technology major structure

1. Take the 4 following prescribed **Knowledge** subjects:
   - 1.1. AQ5015 Sustainable Aquaculture (SP3)
   - 1.2. AQ5002 Aquaculture: Feeds and Nutrition (SP1)
   - 1.3. AQ5006 Aquaculture: Principles and Practice (SP1)
   - 1.4. AQ5003 Aquaculture: Propagation (SP7)
2. Take 3 **Skills** subjects:
   - 2.1. Take AQ5012:06 Aquaculture: Hatchery Techniques (SP1) **obligatory; Plus:**
   - 2.2. Take 2 Additional Skills subjects from List 1.
     - 2.2.1. SC5200 Professional Employability (SP1 and SP2)
       SC5200 is recommended for all students in their first semester of study & compulsory if you are planning on taking the internship program (SC5009) in the MSc Professional degree.
     - 2.2.2. AQ5004 Aquaculture: Stock Improvement (SP10) *recommended*
3. Take 4 **Elective** subjects from List 2.

Full subject descriptions and timings of all subjects can be found online using the *Subject Search* tool. Use this tool to explore your subject options. Each subject is usually only offered once per year, in the 'study period' stated on Subject Search. It is generally recommended to take 8 subjects per year, with 3 or 4 in each main semester (Study Period 1 and 2), and additional subjects in the block mode (intensive) periods (SP3, SP7, SP10 /11) as necessary. An explanation to JCU's academic calendar can be found here.

Multiple subjects can be taken consecutively in a block mode period as long as the face to face teaching dates do not overlap. These dates are displayed on the Subject Search tool. For example a student can take AQ5015 in SP3 followed by MB5310.

Please note that timings of some subjects occasionally change among years, due to JCU's operational requirements. While such changes are rare, students should check when a subject is being taught using the Subject Search tool above.

For any subject you need to have fulfilled the 'Assumed Knowledge' and / or Pre-requisites before you take them. These are listed in the subject's description. For example, EV5502 assumes you have already taken EV5505 or an equivalent at JCU or at your previous university. Speak with your course advisor for more assistance on this.

Where a subject includes overnight field trips this is noted in the subject's description on *Subject Search*. Additional fees apply to cover trip transport, accommodation and food expenses for these field trips.
