JCU Student Netiquette: Using Collaborate

We all expect respect

Wear
what you would for class

Remove or silence
all distractions

Sit in a well-lit space
and be mindful of your background

Be on time, be prepared

Use earphones
with a microphone

Say Hi
when you arrive

Mute your microphone
when not speaking

Turn your camera
on/off as needed

Use the 'raise hand' feature when
you have a question or wish to talk

Use the 'chat' function to ask
or answer a question

Make room for everyone
to have a chance to speak

Use the same professional language
you would in a F2F class

Remember your classes
are being recorded

Be patient, be kind, be respectful

All students must adhere to the
JCU student code of conduct
