University Management Sub-delegation Register

Intent

The University Management Sub-delegation Register supports timely and efficient decision-making. It complements operational and managerial decision making required every day to ensure the University maintains service delivery.

Scope

This Sub-delegation Register applies to all staff while acting in their official capacity.

Definitions

Employment Classification Band: The employment classification structure from BAND 1 to BAND 4 which reflects the published organisation structure.

Delegation Band: the 'Band' demonstrates a consistent level of authority throughout all sub-delegations. University Management sub-delegations range from Band 9, being the most senior, down to Band 3. The Band directly relates to the hierarchy of the university structure and should be considered when implementing new sub-delegations.

Introduction

The JCU approach to managing and administering delegations recognises that governance matters are the purview of Council and its Committees and that operational matters are the purview of management, with appropriate levels of Council oversight.

Governance-related decisions are the responsibility of Council or have been delegated to its sub-committees as appropriate, and are recorded in the [JCU Delegations Schedule](#). Council delegates all operational matters to the Vice Chancellor, who sub-delegates decision making to positions closer to the source of responsibility.

The University Management Sub-delegation Register records the positions responsible for making day-to-day operational decisions that ensure the University is able to operate effectively. The Register is guided by the JCU Delegation Policy and the Sub-delegation Management Procedure. The sub-delegations are intended to:

- Establish appropriate responsibility and accountability for various administrative and operational functions;
- Have multiple sub-delegates where possible (to ensure flexibility);
- Be positioned close to the source of responsibility with the appropriate knowledge, skills and designated position (decision relevance); and
- Reflect the minimum seniority of the band of authority to exercise the delegated authority.

Structure

The Sub-delegations included in this Register only relate to final decisions required for the whole of a process. Some decision-making authorities which constitute part of a process are and will be, from time to time, stated in policy documents and/or the JCU Enterprise Agreement. The Register complements decision-making authority vested in the JCU Enterprise Agreement, Position Descriptions, committee Terms of Reference and the inherent requirements of specific roles and responsibilities within the University.

The sub-delegate will, in applying a delegation within their authority, ensure the decision is based upon a clear appreciation and understanding of the facts, implications, and future consequences of the decision. This may include, but is not limited to, legislative, policy, financial, budgetary and reputational impacts of the decision.

Sub-delegations in this Register reflect the lowest Delegation Band of Delegates who hold the Sub-delegation. Sub-delegates within all Delegation Bands higher than that specified will also hold the Sub-delegation. The exception to this is where the JCU Enterprise Agreement nominates a position (e.g. Head of Work Unit) as being responsible for a matter. In this situation only, the delegation of authority is held solely by the position nominated in the Enterprise Agreement.

The Register is supported by:

- JCU Delegations Policy
- Sub-delegation Management Procedure
- Policy and Delegations Responsibilities Map
- Policies and Procedures

Sub-delegation Management

Custodianship: Custody of the University Management Sub-delegation Register is assigned to the Deputy Vice-Chancellor Services and Resources and Chief of Staff, with respect to their areas of responsibility.

Approval authority: Vice Chancellor

Governance Oversight: Council

Register maintenance: Policy Officer

Functional use of the Register

Where the Register delegates a function to a band, reference should be had to the corresponding policy or procedure to determine the specific position within that band which holds the Delegation. All delegated functions are presented as items from policies or procedures although these may summarise or re-word sections from the policy or procedure. Where terms are capitalised they have policy specific usage and meaning. All policy and procedure references have been taken from the current Policy Library and should be referred to in conjunction with the referenced policy or procedure which sits adjacent to the function reference.

Exercising Sub-delegations

- Sub-delegates will exercise their authority in compliance with the source document, the JCU Delegations Policy, the Conflict of Interest Policy and Procedure and the Staff Code of Conduct, or their replacement documents, in effect at the time.
- Sub-delegates may not exercise their authority in respect of their own positions, or positions higher in the organisational structure, as this may be construed as a conflict of interest.
- Sub-delegates will only exercise their authority within their area of responsibility.
- Sub-delegates may authorise a staff member to undertake actions associated with their decision, however full accountability for the decision remains with the sub-delegate.
